AN INSIGHT INTO HOW CLIENTS CAN BENEFIT FROM WEWO

Discover the WEWO advantage

HERE AT WEWO....

we go beyond being a mere supplier. WEWO sees itself as your trusted partner and a dedicated service provider. Committed to solving your problems, we employ inventive approaches, streamlined processes, and unwavering transparency!

FROM TECHNICAL DESIGN TO THE FINAL SCREW – SPECIALISED NOT STANDARDISED

Custom-made products

Going beyond standard solutions

Boasting a wide range of specialty products, ranging from free machining, quenched and high-temperature steel, duplex, titanium, and austenitic steel, we have the materials to fulfil your individual needs – whether it's a single piece or a medium to large series.

Apart from producing DIN and standard parts, turned and milled parts, our expertise encompasses rolling metric, inch, and trapezoidal threads, as well as diameters up to M 125.

By choosing WEWO, you benefit from swift production times, which is why we are referred to as the “Yellow Angels” for fastening parts.

Thanks to our process-oriented quality management system, which is certified according to ISO 9001 standards, we can provide you with an initial sample test report or an acceptance test certificate upon request.

Put our in-house production capabilities to the test and experience first-hand the difference of individualized solutions that go beyond standard solutions.

C-PARTS MANAGEMENT, SUPPLIER BUNDLING, WAREHOUSE OPTIMISATION...

and much more

1. PLATZ

*C-Teile Management, Lieferantenbündelung, Lageroptimierung, Schrauben, Verbindungsteile sowie Sonderschrauben und Zeichnungsteile aus einer Hand
sehr interessanter Bericht aus dem NIEDERRHEIN MANAGER*

In today's rapidly changing world, digitalization is revolutionizing the way businesses operate. To stay competitive as well as future-proof, companies must be prepared to confront these challenges. Unfortunately, they often find themselves having to tackle outdated processes and new demands.

Attempting to address these issues can be costly and time-consuming. Moreover, it can be a daunting task to independently optimize processes; of course, this requires a great deal of effort due to the fact that often only a limited amount of resources is available.

This is where WEWO comes in, playing the role of problem-solving partner. We are dedicated to delivering the perfect added value for your organization.

We understand that even the smallest details can translate into maximum efficiency for your business. Our prime directive is to collaborate with you in streamlining your processes, reducing unnecessary procedures, and ultimately saving costs.

BILL OF MATERIALS-BASED ORDER PICKING

Demand-oriented compilation of goods

If you're striving to improve warehousing efficiency, our bill of materials-based order picking is the answer you've been looking for.

By using a bill of materials-based order picking methodology, you successfully eliminate the storage of residual quantities, leading to a significant reduction in inventory levels. Moreover, you can bid farewell to time-consuming counting and weighing tasks, allowing you to focus more on assembly.

Our logistics centre is also well-equipped to effortlessly handle ordering and picking based on a list of components. We understand the importance of a demand-oriented compilation of goods, with no quantity restrictions and the ability to provide individual packaging. When it comes to processing bills of materials, our logistics solution is the perfect fit for your requirements.

Rest assured, we prioritize maximum process reliability while minimizing resource utilization, and guaranteeing unparalleled quality.

FAIR, COMMITTED, RESPONSIBLE

Our philosophy

We embrace a philosophy that is dedicated to forging a forward-looking culture that enables our customers to enhance their efficiency, reduce process costs, and achieve lasting success while also fostering a sustainable ecosystem.

We believe in encouraging strong business relationships, engaging in dialogue, ensuring transparency in all our endeavours, and driving performance excellence. Moreover, we encourage the exchange of information, knowledge, and ideas. Together with our business partners, we hold ourselves accountable for the responsible utilization of resources. We leverage intelligent digital solutions to minimize waste in order to create an ecosystem that thrives on efficiency, thus actively contributing to sustainable environmental development.

THE EXPERT IN C-PARTS

Over 600,000 articles in stock

In need of an expert?

WEWO takes pride in being the unrivalled leader in fastening technology, offering you an extensive range of top-notch fastening elements. Our comprehensive assortment includes screws, nuts, washers, and various components suitable for a wide array of applications. There is a wealth of reasons why you should choose us:

- 1. High-quality products:** We prioritize quality and exclusively provide products from renowned manufacturers known for their durability and reliability.
- 2. Extensive range:** Our range encompasses a vast assortment of fastening elements (DIN, ISO, EN), ensuring that you'll find the perfect product for every application.
- 3. Specialist competence:** Our team of experienced professionals are eager to assist you in choosing the right fastening elements and tackling technical challenges.
- 4. Swift delivery:** We strive to process your orders with utmost efficiency and promptly deliver the products you need.
- 5. Reasonable prices:** Despite the exceptional quality of our products, we offer competitive and reasonable prices.
- 6. EU Warehouse:** Catering to your specific requirements, WEWO's warehouse offers a range of services, including supplier declarations, certificates of origin, and 3.1 certificates.

ADDITIVE MANUFACTURING

shaping the future together

The world of 3D printing offers a multitude of possibilities.

We offer you an extensive range of over 200 materials and 18 diverse manufacturing processes, benefitting from reduced material consumption, accelerated manufacturing time, weight optimization, and the freedom to produce even a single piece - all without the burden of setup costs.

From aluminium to plastic, copper to stainless steel, Inconel to titanium, 3D printing has revolutionized various industries including pharmaceuticals, automotive, aerospace, and energy branch. Seize the opportunity to customize your item effortlessly through our user-friendly website, just follow these three simple steps:

- Upload your stp. or stl. file
- Select your desired material and manufacturing process
- Determine the quantity you require

That's it!

YOUR RELIABLE PARTNER FOR ACHIEVING SUCCESS

Decades of Expertise Since 1975

Products

Our team of dedicated professionals specializes in the field of fasteners. With their extensive expertise and years of industry experience, they stay abreast of the latest technologies and advancements, seamlessly integrating them into our products and services.

Application Technology

We continually strive to enhance and refine our application technology know-how. Our application engineers regularly participate in advanced training and development programs to ensure they remain at the forefront of technology.

In-House Manufacturing

We take pride in our proficiency in executing specialized and custom-designed parts. Our employees possess comprehensive knowledge in the design and fabrication of unique components, precisely crafted according to the customer's designs as well as meeting their specifications. Even the most intricate special parts can be swiftly and effectively produced by our skilled workforce.

Streamlined Processes

Collaborating closely with our clients, we gain a thorough understanding of their processes and requirements, enabling us to develop tailor-made solutions. Our process optimization experts are adept at resolving complex technical challenges and are extensively trained in Lean Management, Six Sigma, and other advanced process optimization methodologies.

System Supply

With our comprehensive C-parts management, we ensure transparent control and traceability of orders and deliveries. Our customers can rely on fast and dependable delivery of C-parts at reduced storage costs.

CONSULTING SERVICES

Putting you at the centre

Your search ends here!

Unlock the advantages of partnering with our team of C-parts experts. Since 1975, we have honed our specialization in optimizing C-parts procurement in order to ensure an unparalleled service for you.

Discover the perfect solution for your company, whether you're seeking to implement a Kanban system or resolve corrosion challenges. Our dedicated team will analyse your procurement process, collaborating with you to devise the most effective strategies for saving both time and money.

Contact us to discover our comprehensive services or to schedule a consultation with our specialists!

WECO-CLOUD: 100 % DIGITAL INVENTORY

Inventory at the push of a button

WECO Cloud, the cutting-edge solution that takes Kanban to the next level.

WECO Cloud is the perfect solution for your digital ordering process, automated reordering, inventory at the push of a button and 100 % reliability for C-parts.

With our advanced scales system, you'll effortlessly monitor your C-parts inventory, eliminating any potential production downtimes. Take advantage of our automated reporting stocks that trigger replenishment orders, guaranteeing that your articles never run out. By embracing WECO Cloud, you'll not only save costs but also minimize the effort required to manage your C-parts inventory.

Focus on your A and B articles while WEWO masters your C articles.

COMPLETE ASSORTMENT - FROM A TO Z

Everything you need.

Streamline your supply chain!

In today's business landscape, the challenges of skills shortages and rising process costs are the main concerns for buyers and managers alike. These interrelated issues have a direct impact on every company. That's why finding the right partner who can handle your procurement process and reduce your time investment is crucial, as is having access to an extensive product range. At the same time, flexibility plays a key role because capital commitments and the potential risks associated with perishable goods can cost companies thousands of euros every year.

With over 600,000 articles currently available, we provide one of the largest assortments of C-parts on the market. Alongside precise and project-specific deliveries, you also benefit from our in-house production facility in Straelen and cutting-edge 3D printing technology. Moreover, in many cases, we can take over a significant portion of your suppliers, enabling you to consolidate and streamline your procurement process with WEWO.

Contact us to request a quote or schedule a meeting with one of our dedicated employees.

BE PART OF OUR VALUE CHAIN

We provide personalized advice and support for your success

With years of expertise as problem solvers, we thoroughly analyze our clients' procurement processes and empower them to stay competitive.

Whether it is:

- Implementing efficient Kanban solutions
- Meticulous order picking of bills of materials
- Packaging customized sets according to your specific requirements
- Expert guidance from dedicated account managers
- Seamless integration of digital business processes

Working meticulously, we examine every detail to deliver the best possible solutions for our clients.

WEWO is more than just a supplier - WEWO is an integral part of your value chain! Experience our professional services and join our thriving community of success!
